Priseksempler på ulike «Stands»:

Example with 10 participants

The minimum amount of linear meters per participant in a group stand is 3.

With 10 participants this adds up to a stand of 30 linear meters.

- A group stand of 1 x 28 meters (28 square meters and 30 meters of wall) costs € 2.967.

Divided by 10 artists that is € 297 per artist (as a comparison, the smallest individual stand costs € 507).

If you have some artists that make three dimensional work than I would advise a deeper stand, for example.

- A group stand of 2 x 15 meters (30 square meters and 19 meters of wall) costs € 2.717.

Divided by 10 artists that is € 272 per artist.

- A group stand of 3 x 10 meters (30 square meters and 16 meters of wall) costs € 2.476.

Divided by 10 artists that is only € 248 per artist.
